

THE INTEREST ON STATE LANDS.

What has become of the bill introduced by Senator Williamson to reduce the interest on deferred payments on State lands? The bill deserves better treatment than the Legislature seems disposed to accord it. The money received by the State for school lands is invested in State or United States bonds. The \$380,000 irredemable State bond draws interest at the rate of 5 per cent. per annum though the loan was made when the rate of interest was much higher than it is now. United States bonds draw interest at the rate of 4 per cent. per annum, though they command a premium of 2 1/2 per cent. which reduces the interest on the investment to a fraction over 3 per cent. If the persons who purchased the land paid the full price of \$1 25 per acre, the money could not be invested at over 3 1/2 per cent. interest, at least that is what \$500,000 of the School Fund draws. Why then compel the purchaser, who cannot pay but one-fifth of the price, 6 per cent. on the balance? The State holds the land as security for the deferred payment, and derives taxes annually from what has been paid, as does also the county in which the land is situated. As the debt runs for 25 years and the security for its payment, if the land which has been sold at \$1 25 per acre is worth \$1 an acre, the best, the rate of interest should be reduced to the minimum. Not a reasonable argument had been advanced against the proposed reduction save that the purchaser knew what he had to pay when he contracted with the State for the land. The circumstances which have crippled the stockmen should be taken into consideration as should also the fact that the school money has not been invested at as high a rate of interest as is charged on deferred payments on land, and a bill to reduce the interest to at least 4 per cent. receive the unanimous vote of the Legislature.

THE DIRECT TAX.

The bill to refund to the several States the amount collected by or paid to the General Government under the Direct Tax Act originated with plain agents and lobbyists. It was shown, when the bill was first introduced, that from twenty to fifty per cent. of the amount was to be paid claim agent for lobbying the bill through Congress. Since the passage of the bill those agents have tried every method known to get the names of all who paid the tax for the purpose of buying up their claims for a small percentage of their face value. Assistant Secretary Nettleton, who has been annoyed by them, has issued an order prohibiting them from examining the direct tax records of the Treasury Department unless authorized to do so by the States. He has also notified them that all payments under the Act will be made to the States in trust for the citizens from whom they were collected or their legal representatives.

As the amount of tax paid by Nevada is insignificant compared with that of the more populous States, the claim agents are not so busy here as elsewhere, and as the amount which each individual paid will be refunded, no one, whether his tax was much or little, should authorize a claim agent to collect it.

AT IT AGAIN.

Wiggins, the Canadian weather prophet, is giving forecasts of the weather again. Not the least discouraged by the signal failure of his former predictions, he confidently asserts that there is now approaching the American coast from the North Atlantic the greatest storm of 1891, or even 1892. He tells us there will be no earthquakes, beyond a few shakes, north of the equator for two years, but in consequence of Jupiter's southern declination there will be disturbances on the earth's surface in the Southern Hemisphere.

Wiggins seems to be affected with a mild, but as his vagaries are now known to the people, harmless form of insanity. If he or anybody else can foretell with any degree of certainty months, or even days in advance when storms are to occur, he should, for the benefit of humanity, disclose his secret to the public or to the Government, which would doubtless pay him well for the information, as it would be the means of saving life or property.

THE CARSON MINT.

The Sherman Silver bill, which became a law last July, stops the coinage of silver at the United States Mint on and after the 1st of July next, except at the option of the Secretary of the Treasury. As Secretary Foster is in accord with the President on the silver question, and is not known to have any opinions of his own on the subject, it is very probable that the coinage of silver will cease altogether after the first day of July next. Should such prove to be the fact it will result in a reduction of the force at the Carson Mint, and throw several persons out of employment. However, as the usual appropriation has been made for the Mint, some means may be devised for expending it in the event of the Secretary ordering the coinage of silver to cease.

The Carson Tribune, which maintained a studied silence on the La Grange Secret Ballot bill during the several weeks it remained pigeon-holed in the Assembly, crows like a hen that tries to assume the strut and air of a rooster since the bosses concluded to let the bill pass.

An Anti-Chinese Bill Passes the California Legislature—A Railroad to be Sold to Satisfy a \$28,000,000 Mortgage.

The Chicago, Kansas & Nebraska Railroad to be Sold.

**SPECIAL TO THE JOURNAL.**  
KANSAS CITY, March 12.—Judge Caldwell, of the United States Circuit Court, signed a decree of foreclosure in the case of the Rook Island road against the Chicago, Kansas & Nebraska, and the latter line will now be disposed of at public sale to satisfy the Rook Island's mortgage of \$28,000,000. The case was hotly contested over a year. The controversy arose over the foreclosure of a mortgage on the Chicago, Kansas & Nebraska road. The counties of Kansas and Nebraska, through which the road was built, voted \$3,000,000 in aid of it and they fought the foreclosure. Judge Caldwell referred the case to Newman Erb as referee. Erb decided in favor of the Rook Island and Judge Caldwell assented his decision. The Kansas and Nebraska counties lose the value of their stock, which will become worthless upon the sale of the road. It is rumored that a Gould syndicate will buy the road when it is put up at auction, and thus kill all active competition with the Union Pacific.

**SUPPOSED TRAIN ROBBER ARRESTED.**  
**SPECIAL TO THE JOURNAL.**  
PASO ROBLES, Cal., March 12.—Sheriffs O'Neal and Kay, and Detective Smith, today arrested William Dalton for complicity in the Alila train robbery February 1st, in which Fireman Radcliffe was killed. Dalton admitted to the officers that he had hidden "the boys" and had piloted them to a place of safety. He had done this, not on account of the train robbery, but because they were wanted in the East for murder. Dalton offered, if the officers would promise that "the boys" would not be turned over to the Eastern authorities, to go to the hiding place of the fugitives and notify them to come in, which they would do. The officers offered to send an unarmed man with Dalton but he said "the boys" would kill any one who went with him, as they had 800 rounds of ammunition and were good shots. Dalton will be taken to Visalia to-morrow. The officers claim that they have cleared up the Pixley, Goshen and Alila robberies and that a number of other arrests will soon be made.

**THE RHODE ISLAND DEMOCRATS IN CONVENTION.**  
**SPECIAL TO THE JOURNAL.**  
PROVIDENCE, March 12.—The Democratic State Convention to-day renominated the old State ticket. Resolutions were adopted to reiterate the approval of the St. Louis platform of '88. The Rhode Island Democracy does not advocate the impossible theory of free trade, but believes in freer trade with all countries. It favors honest money sufficient to answer the needs of the people. It congratulates its fellow citizens on their deliverance from the tyranny of ex-Speaker Reed, and the threatening danger of the Force bill. It congratulates the Republican United States Senators who refused to join their party associates.

**THE NEW POSTAL SUBSIDY LAW.**  
**SPECIAL TO THE JOURNAL.**  
WASHINGTON, March 12.—Postmaster General Wanamaker was questioned to-day as to what action, if any, had been taken to carry into effect the new postal subsidy law. He said he was at present engaged upon the preliminary work of the act. "It is necessary," he said, "to ascertain the full scope of the bill, and what American ships are within reach for immediate service." He had had important interviews with the President of the Iman Line, the President of the United States & Brazil Line and others, and he should fix upon the routes he advertised for as speedily as possible, after ascertaining what other ports are not now reached, and should be included in the routes.

**THOMPSON'S BILL TO LICENSE GAMBLERS.**  
**SPECIAL TO THE JOURNAL.**  
CARSON, March 12.—Assemblyman Thompson has introduced a bill in the Assembly placing a license of \$15 per quarter on any male over 21 years of age who gambles at any percentage game in the State of Nevada. The Committee on Public Morals have already reported favorably on the same.

NEW YORK, March 12.—The audience in attendance on the third day great combination sale of California trotters exceeded that of the preceding day. Horses brought good prices.

Soliciting Aid for the Destitute of South Dakota, Kansas and Nebraska.

Special to the Journal.

CHICAGO, March 12.—A meeting of editors of agricultural papers was held here to-day, to listen to Mrs. Blackfan, of Nebraska, and A. A. Fain, of Dakota, delegates to solicit help for the destitute population of the and districts in South Dakota, Kansas and Nebraska. Another meeting will be held to-morrow. This evening, Milton George, who presided at the meeting, said the tales told of the privation and suffering are awful.

All they asked for is food for stock and seed grain. George said he had talked the matter over with a number of wealthy business men, including Messrs. Armour, Hingbothen, Harvey and others, and all have signified a willingness to do something handsome, provided they are assured that the delegates are acting for all, and that there will be no necessity for doing the work over again.

Officials of the roads running West will carry the goods sent to the aid districts free of charge.

**A DESIRE TO REDUCE THE ANNUAL RENTAL.**  
**SPECIAL TO THE JOURNAL.**  
WASHINGTON, March 12.—The Treasury Department is considering the proposition to reduce the annual catch of fur seals in Behring Sea as fixed by the existing lease, in order to guard against a possible extinction of the species. As such a step would necessarily operate as a hardship on the lessees that was not contemplated when the lease was made, the Department will call on the Attorney General for an opinion as to the power of the Secretary to reduce the annual rental of the seal islands below the minimum of \$50,000.

**A SLEDGE HAMMER FALLS TO SECURE A DRINK.**  
**SPECIAL TO THE JOURNAL.**  
UXIAH, Cal., March 12.—William Harmon entered the saloon of James Capell, at Saytonville, last night, and with a sledge hammer on his shoulder demanded a drink, whereupon Capell shot him, the ball passing through his hand into the hip. Harmon's brother, Saul, then rushed into the saloon and was also shot by Capell in the breast, receiving probably a fatal wound. Capell surrendered to the authorities.

**PROPOSALS FOR A STEEL CRUISER.**  
**SPECIAL TO THE JOURNAL.**  
WASHINGTON, March 12.—The Navy Department to-day advertised for proposals for the construction of a steel cruiser of 7,300 tons, bids to be opened June 1. The cruiser must attain a speed of 21 knots an hour for four consecutive hours. For every quarter knot under penalty \$25,000 will be exacted, and for every quarter knot over a premium of \$50,000 will be paid.

**CATTLE AND HORSE THIEVES.**  
**SPECIAL TO THE JOURNAL.**  
SPOKANE FALLS, March 12.—Settlers in Douglas and Lincoln counties are said to be greatly annoyed at raids of an organized band of cattle and horse thieves. A prominent stockman in that section says no less than twelve thousand head of cattle have been stolen in the past year, besides several hundred head of horses.

**THE REQUIRED POWER FAILED TO DEVELOP.**  
**SPECIAL TO THE JOURNAL.**  
WASHINGTON, March 12.—It is said in the Navy Department that the official report of the Trial Board on the gunboat Remington has not yet been submitted but will show that the boat failed to develop the horse power required by the contract by nearly nine hundred.

**THE ANTI-CHINESE BILL PASSES.**  
**SPECIAL TO THE JOURNAL.**  
SACRAMENTO, March 12.—In the Assembly to-day Maher's Anti-Chinese bill passed by a vote of 49 to 5. It provides for the issuance of certificates of residence to the Chinese now in the State and the exclusion of all others. The bill has already passed the Senate.

**BALLING FOR SENATOR WAS RESUMED YESTERDAY IN THE CALIFORNIA LEGISLATURE WITHOUT MATERIAL CHANGE.** Estee gained five votes and lost two; Felton gained three, and De Young neither lost nor gained. The Democrats voted solidly for Coleman.

**BEAR SHOOTING IN THIBET.**  
As I drew near I saw a large bear standing in the river feeding on the carcass of a yak. Taking a gun from one of my men I fired at it, breaking its shoulder. When my men saw what I had done they turned and beat a hasty retreat, shouting to me to run, that the "wild man" might not devour me. Another shot, better aimed, put an end to the bear, but not to the flight of my Mongols, who even then would not approach. Our failure to skin my prize nearly broke my Tibetan servant's heart, for by it he lost his chance to secure the gall, a much valued medicine in China, and worth eight or ten ounces of silver in any drug shop. Mongols and Thibetans attack a bear only when they are a strong, well armed party. My having killed one of these dreaded monsters alone seemed a feat of great daring, and the story was told to every Thibetan we met afterward as proof positive of my dauntless courage.—W. Woodville Rockhill in Century.

As far as the fingers are concerned, experts in especially divide hands into three classes. Long, slender, tapering fingers determine the first, and delicate, delicate, trained perceptions. A subject with such fingers has an innate fondness for art, poetry, music and the higher forms of literature. In the second class, the fingers are shorter, are nearly equal in length, and have blunt ends. They denote a practical, material mind, thorough and reliable, rather than brilliant. A woman with such fingers would make a careful and efficient housekeeper, and a man with similar ones would be cautious and thorough in business. In the third class, the fingers are short, thick and square, and have short, large nails, with cushions on each side of the nails. A subject having these fingers is active, athletic, opinionated, selfish, has strong appetites for the material things of life, and is liable to form strong prejudices.—D. D. Bidwell in New York Ledger.

Peculiar

Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom.

Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of "One Hundred Doses One Dollar." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's.

Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."

Peculiar in its "goodname" at home, there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers.

Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.

Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine, Hood's Sarsaparilla.

Sold by all druggists. \$1; six for \$5. Prepared only by C. L. HOOD & CO., Apothecaries, Lowell, Mass.

Ormsby County Delegation—S. B. No. 75, favorably.  
MOTIONS AND RESOLUTIONS.  
McOlellan moved to change the standing rules, so that the Assembly should meet at 10 A. M. in place of 11. Failing to get a two-thirds vote the motion was lost.  
By Allen—Be it resolved that from and after the 16th inst. no member of this Assembly shall be permitted to introduce any bill. Adopted.  
INTRODUCTION AND FIRST READING.  
Fletcher (by leave)—A. B. No. 112, Authorizing Eureka Commissioners to pay W. H. Sweeney \$251. Eureka Delegation.  
Thompson (by leave)—A. B. No. 113, preventing the willful injury to or interference with railroad property and to provide for the punishment thereof. Corporations.  
Committee on Education (by leave)—A. B. No. 114, providing for the election of trustees. Throws the election out of politics. General File.  
Kinney (by leave) A. B. No. 115, authorizing railroads and other corporations to do business in this State.  
The Senate Concurrent Resolutions, twenty-two in number, were here read and referred to Committee of the Whole.  
RECESS until 1:30.  
AFTERNOON SESSION.  
A. B. No. 74—The seventy-five paged Revenue bill, consumed two hours and a quarter in its reading. Chief Clerk, A. C. Pratt, was courteously spelled or relieved by William P. Hayes, of Storey, and Geo. S. Nixon, of Humboldt.  
The bill passed by unanimous vote. Absent, Hughes, Leeper, McFadden and Ser-ton.  
After 30 minutes filibustering the House adjourned at 4:30 until 10 A. M.  
Another Appeal to the Public.  
Again we are called upon to declare a boycott against one of Reno's merchants or rather against her chief auctioneer, and appeal to the good people of Reno for protection and assistance. It is surprising how little the General regards his pledge. C. W. Booton, of the Opera House Dry Goods store, signed and pledged himself to close his place of business at 8 o'clock on and after Oct. 13, 1890, and later on February 14, 1891, he agreed, before a meeting of the merchants of Reno to close his auction at 8 o'clock, and now he breaks both of his pledges. We therefore ask the public to withdraw their patronage from the Opera House Auction store. We will show the public from day to day, that we are right and deserve their sympathy.

Society Notes.  
The Silver State says: "From notes in the social world in the San Francisco Chronicle we clip the following:  
"Mrs. R. L. Horton, of 1,033 Ellis St., left on Friday last for Carson City, Nevada, to be gone several months.  
"And thus it is that the majority of those holding a State office in Nevada have their residence in California, or immediately leave the State after their term of office expires."  
Home News From Abroad.  
The Walker Lake Bulletin says: "The Reno public schools are closed on account of the prevalent grippes." The JOURNAL is pleased to say that there is no foundation whatever for the statement.  
The Belmont Courier says: There are already several railroads pointing from Salt Lake City toward the heart of Nevada. The Salt Lake Tribune says that John W. Young has his mind on the Deep Creek country; the Union Pacific proposes to standard the gauge of the Utah & Nevada with a view to extension west; the grade to Pioche is ready for the track. The Tintic Road, though not started yet, is already talked of as destined to be extended through to Nevada, and the Rio Grande Western will eventually be extended through to St. George.  
A Washington dispatch says Senator Stewart's family will not go to California this season, as it is their intention to remain at their residence until June. Mrs. Stewart, accompanied by her daughters, Miss Mable Stewart and Miss Bessie Stewart, will then leave for the Hot Springs of West Virginia, whence they will go to the Greenbrier White Sulphur Springs, and in August will go to Narragansett Pier.  
W. H. Gould is building a creamery on his ranch about a mile and a half below town. As the butter made on different farms differs materially and a creamery produces but one kind, and that is good, Mr. Gould's enterprise deserves encouragement.  
The sheep shearing season has commenced. Henry Anderson is shearing his flocks at Millers' ranch on the Meadows, and Abe Scott is baling wool at the end of the N. C. O. Railroad, and several others will begin to shear as soon as men can be had for the business.

WOMAN'S WORLD.

TO SPEND WINTER EVENINGS PLEASANTLY AND PROFITABLY.

A Working Woman's Appeal—English Women's Taste—A Woman Designer. Offered to Young Women—An Interesting Traveler—The Golden Rule.

It is against my principles to do much real work in the evening unless particularly rushed, but I do like a little fancy work or work not so fancy, but light and easily handled, that I can pick up a few minutes when I have an industrious streak; and I know there are some sisters who must do such work evenings, or not at all.

I made a night dress yoke of crocheted wheels. The manner of doing it is this. Take No. 80 or 86 thread, wind the end around your finger eight or ten times, slip the ring off your finger and crochet single stitch closely around it, till it is stiff and round; then make the wheel larger with any stitch you choose, adding stitches enough to keep the wheel smooth and flat. Fill the hole in the middle with rickrack stitch or the spider web used in drawn work, and they look quite antique. Sew together to form the yokes, children's collars, ties, scarf ends, etc.

The other evening sister was home, and as she has just commenced house-keeping for two she has an eye for furnishings of every shape and complexion. We had a spell—rattled up in the store-room, scampered down again with a clothes basket full of rags, planted ourselves 'neath the hanging lamp and proceeded to braid a rug or a border for one.

We took quite a large piece of ingrain for the middle, rounded the ends a little, lined it with a piece of rag carpet to make it as thick as our braid, then laid it on the dining table and sewed the braid on around it. We happened to choose colors for the braid like those in the ingrain, so the rug was really pretty, very substantial, and didn't cost \$10.

She only had one fur and one Smyrna rug, and wanted one she was not afraid to step on accidentally. Mother caught the fever, and is cutting leaves out of heavy cloth, buttonholing them with colored yarns, and declares she is going to have a rug with ingrain center too.

Last winter I made a baby yoke of novelty braid, the kind used for insertion, with picot edge. I crocheted strips of it together with a zigzag chain, using two or three stitches in the chain, and the effect was that of drawn work, as you could hardly see where it was joined.

I bought a new pair of shoes the other day, and the dealer gave me some pretty cards, baby faces on starshaped, and one cherub peeping over the moon. These were on a panel with a calendar in one corner, and I am just going to politely amputate them from this advertisement and put them on plush panels for the gratification of my own self.—Cor. Housekeepers' Weekly.

What a Society Girl Can Do.  
What society young ladies can do sometimes is well illustrated by the career of a Washington young lady. She had lived in Washington for a number of years. She has had independent means, and has lived under the care of relatives and friends, having no immediate family. She was well known in Washington society. No one ever would have thought her capable of running a western ranch. To jump from the gayeties of Washington to the back of a horse in Texas was a long leap, and yet this is what this young lady has done. When forced by circumstances to go to Texas to look after her own affairs, she invested a part of her fortune in a Texas cattle ranch at a time when such investments were all the rage.

She found some time ago that her investment in this direction was bringing in nothing, and probably would be a loss. As she was a fine horsewoman she made up her mind to utilize this practical part of her education, and she left Washington to take charge of her ranch. She has just returned after having made a successful trip and demonstrated, after a year of trial, her capacity to run successfully a Texas cattle ranch. She spent hours out of doors every day on horseback, and for her pluck and courage she has had the hearty support of the neighborhood for miles around her ranch. It is a novel experience for her, but as it has taught her the most interesting lesson of independence, her story should make a good subject for a play.—Washington Cor. Chicago Tribune.

Offered to Young Women.  
C. C. Wood, a retired New York banker, now living in Brooklyn, has tendered, through his wife, \$125,000 to the Young Women's Christian association of Brooklyn, to put up a new building for the association. The building will be erected on the three lots on Schermerhorn street, between Third and Flatbush avenues, which were bequeathed to the association by the late S. B. Chittenden.

Mr. Wood had been contemplating the gift for some time, and decided to make it if \$100,000 could be raised for a permanent endowment. He consulted with President Seth Low, D. W. McWilliams, Truman J. Backus, A. E. Orr, Gen. C. T. Christensen and a number of others on Saturday at the Hamilton club, and the offer was formally made, provided that the \$100,000 is raised by July 1, 1891.

Mr. Wood, John Chaplin and Thomas E. Stillman were made an advisory board. The proposed building will be five stories high and will contain classrooms, work-rooms, parlors, baths, library, roof garden and dormitories. It is hoped to have the building ready by May 1, 1892, when the lease of the present quarters expires.
